// WORK EXPERIENCE

Nexlab
10/2020 - present

Front-end developer
Working as a leader of the front-end team.
Responsible for team management and project deployment.
Join the training program as a mentor.
Projects:
- Daikin: The whole ecosystem uses Reactjs, Vuejs, Vuex, Graphql, and Hasura.
  Team size: 15-17
  Front-end team size: 2-3
  I'm in charge of the work on the front-end team, separating sub-task, assigning to team members and completing my task also.
  Inside of Daikin project, I have built some related projects. Currently, I still keep helping with technical, solutions for front-end team members.

- CC Core: The internal management system of CII, a top infrastructure investment company in Vietnam. Using Vuejs, Vuex, Restfull API.
  Team size: 8-10
  Front-end team size: 1
  This is the first project that I use Vuejs. And I have finished with Stackoverflow's aid.

- GetCare: The health care ecosystem uses Nextjs, Zustand, Tailwindcss, rest full API
Team size: 12
Front-end team size: 4
I'm in charge of module search product in E-commerce system
